

School Policy and Environment State Questionnaire Content

This is a list of the major topics covered in the state-level school policy and environment questionnaire. For more detailed information on the content of the study questionnaires, please visit the project web page at www.rti.org/shpps.

- state policies on:
 - physical fighting by students
 - weapon possession or use by students
 - gang activities
 - harassment of students by other students
 - tobacco by students, faculty, staff, and school visitors
 - alcohol use by students
 - other illegal drug possession or use by students
- state policies to promote school safety and prevent injuries
- the provision of model policies to districts or schools on health topics
- the establishment of school health advisory councils to help develop school policies or coordinate activities that address health issues
